We all had around 345 Horse Power 383 engines, Dennis had a 4 speed, we would race side by side, to the front hit the tou of the mound by speakers an would keep our wheels in the air to the next bank all the way to the .front. One night Dennis got froggy an wanted to show off a lil. He floored the car when he got to top of mound that car stood almost straight up. He hit the brakes that car slammed down an broke a ball joint. They cllidthe wrecker service 1 hour later wrecker came in lights flashing ruined the whole movie. After that we was allowed to come in but park by concession stand where they could see us. Dennisyou was very fun, terriffic sense of humor. Wish i had been around more. God speed bro.
